May 2022

The first Wed of each month, 3 – 3:45 pm at the Village Center in the Fitness Room

In this offering you will be invited to explore the practical healing power of music, movement, and mindfulness in a playful environment. The intention of this hands-on, experiential program is to give participants tools and strategies to help promote brain health, support mental well-being, provide stress relief, and encourage social connection. We will be using beginner friendly music-based techniques. No previous musical skill or experience required. Just bring your open mind and playful heart.

We will be playing with mindful movement that can be done seated or standing, tapping into our own innate rhythmic creativity using body percussion and easy to use percussive instruments, and exploring simple breath practices that can help quiet the mind while soothing the spirit.

This experience will be facilitated by Jennifer Speiden who is a certified yoga therapist, is trained as a Brain Longevity® Specialist from the Alzheimer's Research and Prevention Foundation, has completed the Music and Wellness training with Jim Donovan, and has a MS in Physical Therapy.
