Chair Yoga for Well-Being ★

This class offers a chair supported approach to yogic movement, breath work, and mindfulness. We explore tools to help one feel better in their body, build balance and stability, manage their energy levels, and learn how to skillfully support one's brain health and mental well-being as one ages. In this class, movements will be in a chair and standing. Anything done standing will also have a seated option provided. We will **not** be transitioning to the floor.

Mat Yoga for Well-Being ★★

This yoga class weaves together movement, breath work, and mindfulness to help support body-heart-mind health. In this class, movements and pose options will include the following positions: standing, hands and knees (a chair option will be offered if being on hands and knees is not an option in your body at this time), and lying down on the floor on your belly, sides, and back. **This class is structured for individuals who can easily get up and down from the floor independently.** Please bring a yoga mat if you have one.

Posture, Balance, & Gait (Advanced) ★★

A class designed to work on body mechanics and muscle memory through body weight/awareness and strength training.

Posture, Balance, & Gait (Beginner) ★

Rock Steady Boxing (RSB) ★★★

RSB is a world-renowned program designed for those with Parkinson's. RSB exercises are largely based off of boxing drills. Classes will work on optimal agility, speed, muscular endurance, accuracy, hand-eye coordination, footwork, and overall strength to defend against and overcome opponents associated with Parkinson's.

Taiji for Wellness ★★★

Based on the Hun Yuan Taijiquan-style (focused on the circling or spiraling principles of taiji practice), each two-part class starts with 45 minutes of meditative walking, qigong exercises and simple partner work to improve balance, coordination and range of motion. With regular practice participants will also experience increased strength and learn to relax deeply. The first part of class is suitable for most ability levels; targeted to those able to stand

and move without assistive devices. The second part of class teaches taiji form (choreography), including the Hunyuan 13- and 24-Forms. The ability to learn and practice complex choreography is required for the last 30-minutes of this weekly class.
