We explore tools to help one feel better in their body, build balance and stability, manage their energy levels, and learn how to skillfully support one's brain health and mental well-being as one ages. In this class, movements will be in a chair and standing. Anything done standing will also have a seated option provided. We will **not** be transitioning to the floor.

A class designed to work on body mechanics and muscle memory through body weight/awareness and strength training. Most exercises are done by the bar or seated, as this class is designed for our less balanced folks.

Rock Steady Boxing (RSB) ★★★

Classes will work on optimal agility, speed, muscular endurance, accuracy, hand-eye coordination, footwork, and overall strength to defend against and overcome opponents associated with Parkinson's.

Taiji for Wellness ★★

Based on the Hun Yuan Taijiquan-style (focused on the circling or spiraling principles of taiji practice), each two-part class starts with 45 minutes of meditative walking, qigong exercises and simple partner work to improve balance, coordination and range of motion. With regular practice participants will also experience increased strength and learn to relax deeply. The first part of class is suitable for most ability levels; targeted to those able to stand and move without assistive devices. The second part of class teaches taiji form (choreography), including the Hunyuan 13- and 24-Forms. The ability to learn and practice complex choreography is required for the last 30-minutes of this weekly class.

Qigong ★

Boosts immunity, strengthens muscles, massages the internal organs, improves blood circulation, moves lymph, increases lung capacity. No experience needed. **Please note: Must be able to stand unassisted for 45-60 minutes.** Wear comfortable clothing and shoes.
